** calculated at the financial year end, includes management fees and other operating expenses

Investment Strategy

Mobius Investment Trust plc's objective is to deliver long-term absolute returns by investing in emerging and frontier market equities. MMIT will identify companies with resilient business models which are undervalued and mispriced. MMIT does not use any benchmark and follows an active investment style by partnering with portfolio companies. This is achieved by engaging with stakeholders to improve corporate governance, set out a broader ESG pathway and act as a catalyst for wider operational and financial improvements.

Investor Profile

Mobius Investment Trust plc has no required minimum holding period and is designed for long-term investment (at least five years). MMIT invests in equities and it may therefore be subject to volatility. This requires an elevated risk tolerance.

Opportunities

- + Focus on dynamic small and mid-sized companies in many of the fastest growing economies in the world
- + Fundamental bottom-up research process identifies resilient business models which are undervalued and mispriced
- + Lower ESG standards in emerging and frontier markets offer a unique opportunity for active engagement approach
- + Create value by delivering a clear ESG pathway for our portfolio companies
- + Concentrated portfolio allows a customised engagement strategy for each company

Risks

- MMIT pursues an active management style. Its performance may therefore deviate considerably from that of a comparable market return
- Pronounced fluctuations in price are characteristic of emerging and frontier economies. Other characteristics include specific risks such as lower market transparency, regulatory hurdles, illiquidity of markets as well as political and social challenges
- Investments via Shanghai or Shenzhen Stock Connect are subject to additional risks, quota limitations, custody risk, clearing/settlement risk and counterparty risk
- Focusing intentionally on stocks in small and medium cap companies may entail additional risks (e.g. lower liquidity)

Top 10 Positions (% of Net Assets)

1.	Persistent Systems	9.3%
2.	Apollo Tubes	8.9%
3.	eMemory Technology	7.9%

Commentary

September has seen a continuation of the positive performance of the Mobius Investment Trust (NAV) which is up over 40% from the lows in March.

Stock selection in India continues to be an important driver of performance. The top contributors in September were yet again two of our Indian holdings: Persistent Systems which benefits from increased demand for digitalization with its IT-related services contributed 2.9%. Apollo Tubes, the leading branded steel products manufacturer in India, contributed 1.9%. This holding is an example of an industrial company that is coping with the Covid-19 situation in India better than its peers – with an optimized cost structure and improved working capital management. The third positive contributor (0.7%) was South Korean Health Care company Hugel, which is expected to receive approval by the Chinese regulator to enter the Chinese Botox market with its products later this year.

The top detractors were B2W (-0.5%), Mail.Ru (-0.4%) and Yum China (-0.3%). All three holdings saw a correction in their share price after strong performance earlier this year.

Risk Warnings: This document is issued by Mobius Investment Trust plc for information purposes only and does not constitute an offer or invitation to purchase shares in the Company and has not been prepared in connection with any such offer or invitation. Nothing in this document should be construed as investment advice or a recommendation to buy or sell shares. Before investing in the Company, or any other investment product, you should satisfy yourself as to its suitability and the risks involved, and you may wish to consult a financial adviser. Any return you receive depends on future market performance and is uncertain. Past performance cannot be relied on as a guide to future performance. The Company does not seek any protection from future market performance, so you could lose some or all your investment. Shares of the Company are bought and sold on the London Stock Exchange (LSE). The price you pay or receive, like other listed shares, is determined by supply and demand and may be at a discount or premium to the underlying net asset value of the Company. Usually, at any given time, the price you pay for a share will be higher than the price you could sell it for. For further information on the principal risks the Company is exposed to please refer to the Company's Investor Disclosure Document available at www.mobiusinvestmenttrust.com. The Company can borrow to purchase investments, this could potentially magnify any losses or gains made by the Company.

Mobius Investment Trust plc has used all reasonable efforts to ensure the accuracy of the information contained in this document but makes no guarantee or representation as to the reliability, completeness or accuracy of such information.

Mobius Investment Trust plc is a public limited company whose shares are premium listed on the LSE and is registered with HMRC as an investment trust. The Company has a Redemption Facility through which shareholders will be entitled to request the redemption of all or part of their holding of Ordinary Shares on a periodic basis. The first Redemption point for the Ordinary Shares will be 30 November 2022 and each subsequent Redemption point shall fall on 30 November every third year thereafter.
